# Aerial Lift Pre Operation Inspection and JHA

MISH 20

**MH CONSTRUCTION, INC.**

Industrial Safety & Health Program (MISH)

**FORM-MISH-20: Aerial Lift Pre-Operation Inspection and JHA**

Rev. 3 | Effective: 04/07/2026 | Safety Officer: Matt Ramsey

|                        |  |                       |  |
|------------------------|--|-----------------------|--|
| Project Name / Number: |  | Supervisor / Foreman: |  |
| Job Site Address:      |  | Employee Name(s):     |  |
| Date:                  |  | Subcontractor:        |  |

**Task Description:**

**Pre-Task Hazard Identification:**

|                                                                    |                                                               |
|--------------------------------------------------------------------|---------------------------------------------------------------|
| <input type="checkbox"/> Overhead power lines / electrical hazards | <input type="checkbox"/> Overhead obstructions / pinch points |
| <input type="checkbox"/> Uneven or unstable ground conditions      | <input type="checkbox"/> Inadequate lighting                  |
| <input type="checkbox"/> High winds or adverse weather             | <input type="checkbox"/> Hazardous atmosphere                 |
| <input type="checkbox"/> Drop-offs, holes, or trenches             | <input type="checkbox"/> Falling objects                      |
| <input type="checkbox"/> Pedestrian or vehicular traffic           | <input type="checkbox"/> Equipment malfunction                |

**Required PPE:**

|                                         |                                                  |
|-----------------------------------------|--------------------------------------------------|
| <input type="checkbox"/> Hard Hat       | <input type="checkbox"/> Full Body Harness       |
| <input type="checkbox"/> Safety Glasses | <input type="checkbox"/> Shock-Absorbing Lanyard |

|                                               |                                             |
|-----------------------------------------------|---------------------------------------------|
| <input type="checkbox"/> High-Visibility Vest | <input type="checkbox"/> Work Gloves        |
| <input type="checkbox"/> Steel-Toe Boots      | <input type="checkbox"/> Hearing Protection |

**Job Hazard Analysis (JHA):**

| Step # | Task Step Description         | Potential Hazard                                | Hazard Control Measure                                                                  | Responsible Party  |
|--------|-------------------------------|-------------------------------------------------|-----------------------------------------------------------------------------------------|--------------------|
| 1      | Pre-operation inspection      | Missed defects, equipment failure               | Complete inspection checklist thoroughly before use                                     | Operator           |
| 2      | Moving lift to work area      | Struck-by, tip-over, crushing                   | Use spotter, check route for hazards, maintain safe speed                               | Operator / Spotter |
| 3      | Elevating platform            | Fall, struck-by overhead objects, electrocution | Maintain 10ft clearance from power lines, wear harness/lanyard tied off to anchor point | Operator           |
| 4      | Performing work from platform | Dropped objects, falls                          | Keep tools tethered, do not stand on guardrails, keep feet on floor                     | Operator           |
| 5      | Lowering and parking lift     | Crushing, unauthorized use                      | Check below before lowering, park on level ground, remove key                           | Operator           |
| 6      |                               |                                                 |                                                                                         |                    |
| 7      |                               |                                                 |                                                                                         |                    |
| 8      |                               |                                                 |                                                                                         |                    |
| 9      |                               |                                                 |                                                                                         |                    |
| 10     |                               |                                                 |                                                                                         |                    |
