MH CONSTRUCTION INDUSTRIAL SAFETY AND HEALTH PROGRAM

Title

SAFETY AND HEALTH ORIENTATION

Number

Revision 1 Approved By Jeremy Thamert 03/01/2025 Name Date Effective Date 3/1/25 Page 1 of 6

1.0 PURPOSE

To define the requirements, responsibilities, and system for orienting employees to the MH Construction Industrial Safety and Health (MISH) program, and instructing employees to the job-specific requirements. To ensure compliance with Occupational Safety and Health Administration/Washington Industrial Safety and Health Act (OSHA/WISHA) requirements.

2.0 RESPONSIBILITY

2.1 MH Construction is responsible for the following:

2.1.1 Assisting contractors in identifying area-specific emergency response and notification requirements.

2.2 The Key Supervisor shall be responsible for the following:

2.2.1 Orienting their employees and lower-tier contractor employees to the MISH program and completing the Orientation Checklist (attachment MISH 4-A) prior to individual employees beginning work activities.

NOTE: Escorted personnel including vendors, engineers and infrequent visitors, can be exempt from the MISH program orientation provided they are escorted and kept out of hazardous areas.

2.2.2 Ensuring each employee and lower-tier employee has reviewed the applicable/required MISH procedures and signed the Orientation Signature Sheet (attachment MISH 4-B).

2.2.3 The checklist and signature sheet shall be available at the jobsite.

2.3 Employees shall be responsible for understanding and complying with the MISH program and job-specific requirements.

3.0 DEFINITIONS

Not Applicable

4.0 GENERAL REQUIREMENTS

4.1 Key Supervisors/Safety Representative shall orient employees to the MISH program as identified on the Orientation Checklist, and to procedures the Contractor identifies that are applicable to the project. These procedures must be checked on the Orientation Checklist.

4.2 Topics to be covered during the orientation (as a minimum) include:

☐ Employer rights and responsibilities

☐ Disciplinary procedures

☐ Alcohol and Drug Abuse policies

☐ Access to exposure monitoring data/records

☐ Location of JHAs and company safety program

☐ Emergency signals, response, and notification requirements for the area

☐ Location of fire extinguishers, pull box alarms, emergency evacuation routes, and first aid facilities

☐ How to report injuries

☐ How to report unsafe conditions

☐ The use and care of personal protective equipment

☐ Identification of hazards gases, chemicals and materials; instruction on the hazards of these products and their safe use

☐ Instruct employees regarding smoking in Owner’s facilities. Additionally, contractors are encouraged to establish designated smoking areas for their facilities. The designated smoking area provides a healthier workplace for the employee where “passive smoke” effects are minimized and the rights of smokers are also respected.

☐ Location of nearest Medical Aid Station

☐ Location of nearest telephone

4.3 The employees, after understanding the procedures identified in the Orientation checklist, sign the Orientation Signature Sheet.
