Marketing Flight Program Standard

Version 1.0 | Rough Draft | Effective date pending approval

Control Role	Assigned
Author / Chief Editor	Matt Ramsey
Co-Editor	Todd Shoeff
Final Approver	Jeremy Thamert
Lifecycle	Draft
Effective Date	Pending Approval

Purpose

Govern the in-house Marketing Flight portal for campaigns, stakeholder relationship building, events, email, social media, and website publication preparation.

1. Command

Marketing reports through CHENG. CHENG controls brand, stakeholder, safety, website, and publication readiness. CHNAV supplies approved Sales and Preconstruction requirements. IT administers security and integrations. COO approves production releases.

2. Controlled inputs

BidPilot may send qualified opportunity information only after CHNAV approves the communication strategy. Field Command Center closeout data may enter Marketing Flight only after project closeout and CHENG publication eligibility review.

3. Publication restrictions

Marketing Flight may not publish confidential bids, contract values, unapproved client identities, active-site security details, personnel records, incidents, or protected project information. Public qualification status is limited to Qualified and Current or Not Current.

4. Campaign records

The system records social posts, email blasts, events, sponsorships, stakeholder contacts, approvals, publication dates, website packages, and performance results.
