Control: Version 1.0 | Status Rough Draft | Author and Chief Editor: Matt Ramsey | Co-Editor: Todd Shoeff | Final Approver: Jeremy Thamert

TBT-01.08: Enforcing Subcontractor Prequalification on Site

CSI Division: Div 01 | OSHA Reference: MH Standard

Delivery: Mandatory for all Superintendents and Foremen.

DIRECTIVE — Policy Standard

No subcontractor personnel may commence work on an MH Construction, INC site unless their company has an approved SUB-F-02.1 Prequalification on file and they have completed the site-specific safety orientation.

GENERAL ORDER — Procedure

The MH Foreman is the gatekeeper. If an unknown subcontractor crew arrives on site, the Foreman must halt their work, verify their status with the PM Wing, and conduct the orientation before allowing tools to be unloaded.

Key Hazards & Mitigation (The 'What If'):

- The 'Quick Fix' Sub: If the client sends their own IT vendor to run a cable 'real quick,' they are still a subcontractor. They must be oriented, wear PPE, and follow MH safety rules. No exceptions.
- Missing SDS: If an approved sub arrives but fails to provide the SDS for their chemicals, they cannot bring the chemicals onto the site. Hold the materials at the gate.
- Rogue Foremen: If a sub's Foreman refuses to attend the morning MH Toolbox Talk, their crew does not work that day. Compliance is a condition of their contract.

FIELD INSTRUCTION — Execution

FIELD INSTRUCTION: Foremen must verify that every sub on site today has signed the daily JHA (MISH-F-09.2) and the TBT roster. Log attendance on MISH-F-10.1.

Attendance Roster (Log on MISH-F-10.1):

Print Name	Signature	Company/Trade
