TBT-01.11: Housekeeping & Slip/Trip/Fall Prevention

CSI Division: Div 01 | Track Assignment: Track 4 Universal

DIRECTIVE

A clean site is a safe site. Housekeeping is a continuous operation, not just an end-of-shift task.

GENERAL ORDER

Debris, scrap material, and tools must be cleared from walkways, stairs, and work areas continuously. Cords and hoses must be suspended or covered.

Key Hazards & Mitigation (The 'What If')

- Extension cord stretched across main hallway — use cord hooks to suspend it above head height.
- Worker trips on loose banding strap — cut and dispose of banding immediately after breaking bundles.
- Spilled water near electrical panel — barricade area, clean immediately, notify Foreman.

FIELD INSTRUCTION

Foreman: Assign a dedicated 15-minute cleanup period at the end of every shift and verify completion before dismissing the crew.

Toolbox Talk Documentation & Sign-Off

This Toolbox Talk (TBT) is a mandatory component of the MH Construction, INC Industrial Safety & Health (MISH) Program. All site personnel, including subcontractors and temporary laborers, must attend this briefing before commencing related work activities.

The Site Safety Commander or designated Foreman is responsible for delivering this content, ensuring comprehension, and documenting attendance. Failure to adhere to the safety protocols outlined herein may result in disciplinary action up to and including removal from the jobsite.

By signing the daily attendance log (Form MISH-F-10.1), you acknowledge that you have received, understood, and agree to comply with the safety directives presented in this Toolbox Talk.
