TBT-01.17: Cold Weather Operations & Frostbite

CSI Division: Div 01 | Track Assignment: Track 4 Universal

DIRECTIVE

Winter weather introduces unique hazards including ice, reduced dexterity, and cold stress. PPE must be adjusted accordingly.

GENERAL ORDER

Dress in layers. Keep dry. Use ice melt on all walkways and stairs before work begins. Monitor for frostnip on exposed skin.

Key Hazards & Mitigation (The 'What If')

- Ice forms on scaffold planks overnight — do not access the scaffold until it is fully cleared and sanded.
- Worker's gloves get soaked in freezing rain — mandate a change to dry gloves immediately.
- Loss of feeling in fingers — move to a heated area, warm slowly, do not rub the skin.

FIELD INSTRUCTION

Foreman: Walk the site and apply ice melt to all primary access routes before the crew arrives.
