TBT-01.15: Mental Health & Fatigue Awareness

CSI Division: Div 01 | Track Assignment: Track 4 Universal

DIRECTIVE

Construction is a high-stress, physically demanding industry. Fatigue and distraction are root causes of severe accidents.

GENERAL ORDER

Watch out for your crewmates. If someone is visibly exhausted, distracted, or acting out of character, pull them aside. It is okay to ask for help.

Key Hazards & Mitigation (The 'What If')

- Worker is falling asleep during the morning brief — reassign them to a low-risk task or send them home to rest.
- Crew member is uncharacteristically aggressive — separate them from the work area, notify the Superintendent.
- Working 60+ hour weeks — enforce mandatory rest periods, rotate heavy tasks.

FIELD INSTRUCTION

Foreman: If a crew member is too fatigued to work safely, pull them off the line. Safety is compromised when focus is lost.

Toolbox Talk Documentation & Sign-Off

This Toolbox Talk (TBT) is a mandatory component of the MH Construction, INC Industrial Safety & Health (MISH) Program. All site personnel, including subcontractors and temporary laborers, must attend this briefing before commencing related work activities.

The Site Safety Commander or designated Foreman is responsible for delivering this content, ensuring comprehension, and documenting attendance. Failure to adhere to the safety protocols outlined herein may result in disciplinary action up to and including removal from the jobsite.

By signing the daily attendance log (Form MISH-F-10.1), you acknowledge that you have received, understood, and agree to comply with the safety directives presented in this Toolbox Talk.
