TBT-32.02: Landscaping Equipment & Chipper Safety

CSI Division: Div 32 | Track Assignment: Track 1 Civil & Earthwork

DIRECTIVE

Wood chippers and heavy landscaping equipment have aggressive feed mechanisms. Loose clothing, jewelry, and long hair are strictly prohibited when operating this equipment.

GENERAL ORDER

Never use hands or feet to push material into the chipper chute—use a push stick or long branch. Wear a face shield and hearing protection.

Key Hazards & Mitigation (The 'What If')

- Branch gets stuck in the chipper feed — turn off the machine, let the drum stop completely before clearing.
- Worker wearing a hoodie near the feed chute — stop work, instruct worker to remove or secure loose clothing.
- Flying debris from the discharge chute — establish a clear zone around the discharge area.

FIELD INSTRUCTION

Foreman: Inspect the crew for loose clothing, drawstrings, and jewelry before chipper operations begin.
