TBT-33.01: Deep Sewer & Water Main Trenching

CSI Division: Div 33 | Track Assignment: Track 1 Civil & Earthwork

DIRECTIVE

All trenches over 5 feet deep require a trench box or proper sloping. A Competent Person must inspect the trench daily.

GENERAL ORDER

Keep excavated spoil piles at least 2 feet back from the edge of the trench. Provide safe access/egress within 25 feet of workers.

Key Hazards & Mitigation (The 'What If')

- Trench wall begins to slough — evacuate immediately.
- Worker enters trench without box — stop work, enforce trench safety rules.
- Heavy equipment operating too close to edge — move equipment back to prevent collapse.

FIELD INSTRUCTION

Foreman: The Competent Person must sign off on the trench inspection before anyone enters the excavation.
