CH 01: Introduction & Company Overview —

Revision 4.0 • Effective July 2026 • Approved: Jeremy Thamert, Owner/President

WELCOME TO MH CONSTRUCTION, INC.

Welcome to the team. This Employee Handbook introduces the services MH Construction, Inc. provides, gives you a general understanding of the policies by which we operate, and outlines the procedures each team member follows to keep our operation smooth, professional, and successful.

BUILT ON QUALITY, BACKED BY TRUST.

A strong, productive MH Construction, Inc. team is built on strong working relationships grounded in mutual respect and understanding. Our established policies and practices provide the foundation for those relationships. This handbook is prepared to give you general information about the policies, procedures, and benefits of MH Construction, Inc. Contact your supervisor whenever you need more detailed information.

WHO WE ARE

MH Construction, Inc. is a veteran-owned general contractor serving Washington, Oregon, and Idaho. We build lasting value for our Client Partners through disciplined craftsmanship, transparent communication, and a safety-driven culture. Every project we deliver reflects the standard we hold for ourselves: quality work, delivered with integrity, by a team that takes pride in the result.

COMPANY CULTURE

Every MH Construction, Inc. team member is expected to contribute to a safe and healthy work environment that promotes cooperative working relationships based on mutual respect and understanding. Because each role matters to the overall success of the company, we ask every team member to complete their assigned work skillfully and efficiently. We win as a team. When we communicate openly, hold one another accountable, and put safety and quality first, we deliver the experience our Client Partners expect and earn the trust that keeps our business strong.

HOW WE ARE ORGANIZED

To maintain clear communication and accountability across our tri-state operations, MH Construction operates under a defined command structure. Field operations are led by Site Safety Commanders (Superintendents) and Field Safety Leads (Foremen), who report to the Chief Superintendent. The Chief Superintendent works congruently with Project Managers to execute the schedule, while Safety Command oversees the MISH program and regulatory compliance. All operations ultimately report through the Chief Operations Officer (COO) to the Owner/President.

THE MISH PROGRAM AND YOUR DIGITAL RESOURCES

Safety is our operational baseline. MH Construction operates under the 59-chapter **MISH (MH Construction Industrial Safety & Health) Program**, which supersedes this handbook on all matters of field safety, hazard mitigation, and incident response.

To ensure you always have access to the latest policies, forms, and MISH chapters, MH Construction maintains a digital **Safety Dashboard**. You can access the dashboard via the company website or by scanning the QR codes located on the physical MISH binders at your job site.

HOW TO USE THIS HANDBOOK

This handbook is organized into chapters that group related policies together, making it easy to find the information you need. Several chapters include an acknowledgment form that confirms you have received and understood the policies in that area. Please read each chapter carefully, keep this handbook for reference, and reach out to your supervisor or the Human Resources Department with any questions.

INFORMATION POSTING

MH Construction, Inc. maintains a bulletin board where important notices are posted. It is your responsibility to read the bulletin board on a regular basis and stay aware of posted items, including required labor-law notices and company announcements.

DISCLAIMER

This handbook is prepared as a guide to the policies, benefits, and general information intended to assist you during your employment with MH Construction, Inc. Nothing contained here is intended to be a contract of employment or a contractual duty between MH Construction, Inc. and any of its team members. This handbook may be changed, amended, revised, or discontinued as the management of MH Construction, Inc. deems appropriate, with or without advance notice. It is a summary of the company's policies, benefits, and procedures and is neither all-inclusive nor intended to anticipate and address every specific circumstance that may arise.

CH 02: Employment Classifications & Schedules —

Revision 4.0 • Effective July 2026 • Approved: Jeremy Thamert, Owner/President

PERSONAL INFORMATION

It is important that the personnel records of MH Construction, Inc. be accurate at all times. All team members are required to inform the company of any change in name, address, phone or cell number, person to be notified in case of an emergency, email address, or marital status and dependents. MH Construction, Inc. does not give out personal team member information.

EMPLOYMENT CATEGORIES

- **Probationary:** All newly hired team members are considered probationary until completing 90 days of employment and receiving a satisfactory evaluation from management.
- **Part-Time:** A part-time team member works less than 30 hours per week; hours must be approved on a weekly basis if they exceed 30 hours. Part-time team members are paid hourly, may not be eligible for company benefits, are eligible to accrue paid time off, and must accurately track daily time worked by weekly timecards.
- **Temporary:** A temporary team member is retained on a limited, as-needed basis for special projects, may not be eligible for company benefits, and must accurately track daily time worked by weekly timecards.
- **Non-Exempt (Hourly):** A non-exempt team member works more than 30 hours per week, is paid hourly, and is expected to maintain an in-and-out time record by weekly timecards. These positions are eligible for overtime pay if more than 40

hours are worked in a workweek. Any overtime or nonstandard hours must be approved, before they occur, by the Site Safety Commander (Superintendent) or Chief Superintendent.

- **Exempt (Salaried):** These positions are excluded from the overtime provisions of the Fair Labor Standards Act. An exempt team member is paid a salary regardless of the number of hours it takes to complete weekly tasks and is eligible for the same benefits as full-time team members, apart from overtime compensation or compensation time. Salary takes into consideration skill level as well as the hours the job demands.

A team member hired by MH Construction, Inc. will be on probation for the first 90 days, set up by the supervisor at the time of hire. The probationary period is the final phase of the selection process, used to ensure the new team member possesses the technical and interpersonal skills needed to perform the job satisfactorily and to interact successfully with the MH Construction, Inc. team. Failure to receive a satisfactory evaluation during or at the end of the probationary period will result in termination.

WORK SCHEDULES

The normal MH Construction, Inc. work week is Monday through Friday. Operating hours for field team members are between 7:00 AM and 3:30 PM. Normal office hours are from 7:00 AM to 4:00 PM. Every full-time team member is expected to work at least an eight-hour day, five days a week, though a supervisor and team member may agree to modify this schedule with management approval. Field team members are expected to arrive at their assigned job sites—not the office—ready to work at the start of the day, and office team members are expected to arrive at the office at the start of the day.

Full-time team members are allowed a 30-minute lunch period, and part-time team members' lunches are scheduled as needed. All breaks offered will be in accordance with state laws, and if the company requires you to work through your lunch period, the company will pay for your lunch period. If you are going to be late, you must contact your supervisor as well as the Chief

Superintendent or COO; failure to do so will result in a verbal warning, after which your employment status will be under review and subject to termination.

ATTENDANCE

Chronic, habitual, or excessive lateness or absenteeism will not be tolerated. Lateness, absenteeism, and failure to follow call-in procedures are causes for disciplinary action up to and including termination. MH Construction, Inc. has some very busy months, usually March through September, during which team members are required to be available for longer, busier days; we discourage vacations during these months but will do our best to accommodate requests. When reporting sick, report to the Chief Superintendent or COO as well as the superintendent you are assigned to that day; if you are a superintendent or working on a site by yourself, report to the Chief Superintendent, Project Manager, or the President.

PERFORMANCE REVIEWS

Your performance will be reviewed during and at the end of your 90-day probationary period, as well as yearly throughout your employment. If your performance is found satisfactory following the probationary period, you may become a fully participating staff member eligible for group benefits, as outlined in the employment categories.

Performance reviews at MH Construction evaluate both technical execution and safety compliance. Adherence to the MISH program, participation in Job Hazard Analyses (JHAs), and proactive hazard reporting are core competencies required for advancement. At the time of review, you will meet with your immediate supervisor to discuss strengths and weaknesses, career development, goals, and objectives. A written review will be placed in your personnel file after that discussion, and you will be asked to sign it to acknowledge the conversation; a copy will also be given to you for your personal files. Pay increases are not part of the review process unless indicated by your supervisor, and all pay increases are based on merit.

OUTSIDE EMPLOYMENT

If, while employed with MH Construction, Inc., a team member becomes involved in other employment, it is essential that their primary commitment is given to MH Construction, Inc. This commitment includes honoring your work schedule at MH Construction, Inc. While employed here, a team member may not use talents or knowledge gained through employment at MH Construction, Inc., company equipment, software, or other company assets for the benefit of another company or non-MH Construction, Inc. staff, without the express permission of the President.

CH 03: Compensation & Benefits —

Revision 4.0 • Effective July 2026 • Approved: Jeremy Thamert, Owner/President

TIME KEEPING

The Federal Government requires that MH Construction, Inc. maintain accurate time tracking for hourly team members. All team members are expected to keep track of their hours worked, and any unauthorized team member who alters the report of another team member's time worked will be subject to disciplinary action up to and including termination. MH Construction, Inc. utilizes HH2 software for generating timesheets; a username and password will be given to each new team member on their first day of employment. Team members should not rely on their supervisors to enter their time in HH2. HH2 time must be entered daily and signed as complete and accurate on Fridays by end of day, and time will be approved by supervisors Monday morning, after the last day of the pay period. Failure to turn in time sheets will result in progressive disciplinary action, which may include a verbal warning, written warning, disciplinary suspension, or termination of employment.

REGULAR PAY

Team member benefits are a significant part of your total compensation. Paychecks are distributed weekly, five business days after the end of the weekly pay period. When the distribution day falls on a holiday, paychecks will be distributed on the preceding business day.

OVERTIME

Overtime is defined as time worked beyond a forty-hour period from Monday through Sunday. Hourly-waged team members will be compensated on a time-and-a-half basis for overtime,

and team members are to complete their daily and weekly assignments during regular office hours. Non-exempt team members are eligible for overtime for all hours worked that exceed 40 in any work week. It is expected that a team member will comply with any reasonable request to work overtime, and MH Construction, Inc. will try to give you as much notice as possible when overtime is necessary. All overtime designated by your manager is approved overtime; if a team member works overtime without approval, the overtime must be paid, but the team member may be subject to disciplinary action up to and including termination. Exempt team members will not be paid on an overtime basis and may be asked to work extra hours as business demands or as otherwise necessary.

BONUS AND INCENTIVE PAY

MH Construction recognizes and rewards exceptional performance. Bonus or incentive pay is additional compensation paid to a team member, or group of team members, in addition to their normal rate of pay. Bonuses are awarded based on management discretion and are tied directly to three factors: project profitability, schedule execution, and adherence to the MISH safety program. Safety violations or failure to report incidents may disqualify a team member from incentive programs.

GARNISHMENT OF WAGES

MH Construction, Inc. honors wage garnishments. Team members will be notified immediately when garnishment orders are received from the courts or other governing agencies.

BENEFITS ELIGIBILITY

Team members shall work a minimum 30-hour work week to be entitled to benefits. Willfully making a false statement for the purpose of obtaining or denying benefits may result in criminal prosecution and termination of employment.

MEDICAL INSURANCE

MH Construction, Inc. offers medical insurance to all full-time team members. Details of the plans may be found in the Benefit Booklet; this handbook does not constitute such a legal document. The company offers medical coverage for eligible team members and their eligible dependents, administered by a major medical insurance carrier or health maintenance organization (HMO). A team member's contribution for coverage will be deducted from salary based on the benefit plan selected. In the event of any conflict between this handbook and the company's SPDs, the SPDs shall govern. These plans are subject to change at the company's discretion, as is the amount you may be required to contribute toward the premiums. Full-time team members are eligible to participate after fulfilling a 60-day probation period, with benefits beginning the first of the following month.

EMPLOYEE ASSISTANCE PROGRAM (EAP) & MENTAL HEALTH

In alignment with MISH 55 (Mental Health & Workforce Wellbeing), MH Construction provides access to an Employee Assistance Program (EAP). The EAP offers confidential, professional support for personal or work-related challenges, including stress, family issues, substance abuse, and financial concerns. Utilizing the EAP is entirely confidential and will not negatively impact your employment status.

TEAM MEMBER CONTRIBUTIONS

The company's benefit package is contributory; you are responsible for a portion (25%) of the premium for your benefits. If you choose insurance coverage for more than just yourself under the plan, you will be responsible for 100% of the additional premium. A portion of the premium, up to a maximum per month, is contributed by the company, and your contributory cost is deducted from your paycheck.

ENROLLMENT

At the time you are hired, you are given an opportunity to elect certain benefits. If you waive participation for yourself or your eligible dependents, you will generally be allowed to apply only during Open Enrollment. The Open Enrollment period, determined by the insurance company, allows team members to add or change coverage; changes take effect on the effective date following the period, and once made, a selection cannot change until the next Open Enrollment except in the case of a major life status change. A qualifying event—such as marriage, birth or adoption of a child, or involuntary loss of medical and/or dental coverage—may allow Special Enrollment as long as application is made within 30 days of the event. For specific details, refer to your Summary Plan Description.

CONTINUATION OF HEALTH COVERAGE

Federal law generally requires employers with 20 or more employees to give team members, spouses, and dependent children the right to continue group health benefits for limited periods under certain circumstances, such as voluntary or some involuntary job loss, reduction in hours worked, death, divorce, and other life events. Team members ordinarily may continue their health coverage for up to 18 months when their employment ends, subject to the specific terms of the plan and applicable law.

WASHINGTON PAID FAMILY & MEDICAL LEAVE AND WA CARES

All team members have premiums withheld from their paycheck to contribute to the Washington Paid Family and Medical Leave fund as well as the WA Cares fund. These are state-run short-term coverage programs, and you must file with the state upon qualifying.

WORKERS' COMPENSATION

To provide for payment of your medical expenses and partial salary continuation in the event of a work-related accident or

illness, you are covered by workers' compensation insurance, provided by the company and based on state regulations. The amount of benefits payable, and the duration of payments, depends on the nature of your injury or illness; all medical expenses incurred in connection with an on-the-job injury or illness and partial salary payments are paid in accordance with applicable state law. If you are injured or become ill on the job, you must immediately report it to your manager and the Human Resources Department so the company can help you obtain appropriate medical treatment. Failure to follow this procedure may delay or jeopardize your benefits.

SOCIAL SECURITY AND MEDICARE

Through Social Security, you and your family are protected against loss of work income due to retirement, disability, or death. Medicare protects you against the increasing medical expenses associated with aging. All team members participate in the Social Security program, and you and MH Construction, Inc. both contribute on your behalf.

UNEMPLOYMENT COMPENSATION

The U.S. Department of Labor's unemployment insurance programs provide unemployment benefits to eligible workers who become unemployed through no fault of their own and meet certain other eligibility requirements. Unemployment insurance is a joint state-federal program that provides cash benefits to eligible workers; each state administers a separate program under the same guidelines established by federal law. This plan is financed by employers and a small portion by the team member, through payroll taxes.

401(K) RETIREMENT PLAN

The 401(k) plan is a workplace retirement plan that allows team members to defer a certain portion of their wages into a retirement account, which they can then invest for the future, receiving certain tax advantages in both the short and long term. Team members become eligible to contribute to the 401(k) plan after 12 months of employment and may contribute between

1% and 90% of their eligible compensation, before or after tax as permitted by the plan.

CH 04: Code of Conduct —

Revision 4.0 • Effective July 2026 • Approved: Jeremy Thamert, Owner/President

CODE OF CONDUCT

MH Construction, Inc. requires all team members to comply with all company policies and directives. Team members are to perform their duties in a cooperative and efficient manner, demonstrating high regard for work habits, attitude, production, and personal conduct. We expect team members to refrain from discussing contentious or personal topics involving other team members and salary amounts, and to conduct themselves professionally at all times.

Whether you are a current or former team member of MH Construction, Inc., under no circumstances may you use, transfer, or convey by any means—including e-mail—equipment, purchased software, computer software developed by yourself or another team member, Client Partner lists, or any other company-owned materials or intellectual property belonging to MH Construction, Inc., or use such for other employment or for the benefit of any other company or person outside the company, without the express written permission of the President. Personal use of company property may be authorized for the benefit of a team member under special circumstances.

Team members should leave valuable personal items at home. MH Construction, Inc. cannot be responsible for the loss, theft, or damage of any personal property brought to the office. Management works hard to accurately analyze the value of various job tasks, educational requirements, and experience; your proficiency and that job's value to the company determine your pay. Anyone accessing payroll records without specific authorization will be subject to immediate termination. Gossip destroys team morale, and management will not tolerate negative discussions among team members about management

or other team members. If you have a question about an event or a policy, go directly to your supervisor and ask for clarification.

DRESS CODE

MH Construction, Inc. expects that each team member's appearance will be consistent with a professional image. All team members are expected to dress in attire appropriate to their position and duties. Clothing should be neatly laundered, and all team members must practice good hygiene.

For field team members, dress code is dictated by safety. High-visibility apparel, hard hats, safety glasses, and sturdy work boots are mandatory on all active sites as defined by the MISH program and the daily Job Hazard Analysis (JHA). No earrings or other jewelry that may be considered a safety concern by the Site Safety Commander may be worn during work hours. Office team members should wear appropriate, non-revealing clothing that would be considered professional by most standards.

DRUG AND ALCOHOL USE

MH Construction, Inc. team members are expected to report for duty in a manner that provides for public safety and efficient performance. The possession, use, distribution, manufacture, or sale of alcohol and/or controlled substances is prohibited. A team member is prohibited from having alcohol and/or controlled substances in a company or personal vehicle on a jobsite, and may not work while under the influence of alcohol and/or a controlled substance. Prohibited drug use may include over-the-counter medication when it is used in a manner inconsistent with its intended use and/or affects the performance of the team member. The use of alcoholic beverages during working hours or lunch breaks is strictly prohibited; no alcoholic beverages are allowed on any MH Construction, Inc. job site or company property, including office locations and warehouses.

As a condition of continued employment, and in strict accordance with MISH 06 and MISH 07, team members **are required** to undergo random alcohol and drug screening. A screening is also mandatory when a team member is party to a

workplace injury that results in damage to themselves, a fellow team member, or company property. Failure to take part in a drug or alcohol screening is cause for immediate termination. Team members violating this policy are subject to disciplinary action up to and including termination, at the sole discretion of management.

NON-SMOKING

MH Construction, Inc. endeavors to provide a safe and healthy working environment for all team members and therefore prohibits smoking in any location other than designated areas, including company buildings, job sites, and company vehicles. Team members who violate this policy may be subject to disciplinary action up to and including termination.

SOCIAL MEDIA POLICY

MH Construction recognizes that team members use social media on a personal basis. However, to protect our Client Partners and our brand, team members must adhere to the following guidelines:

1. Do not post photos or videos of active job sites, client properties, or proprietary construction methods without prior written approval from the COO or President.
2. Do not represent yourself as a spokesperson for MH Construction unless explicitly authorized to do so.
3. Do not post derogatory, discriminatory, or harassing content regarding the company, clients, vendors, or fellow team members.

Violations of the social media policy that damage the company's reputation or violate client confidentiality will result in disciplinary action.

GIFTS AND TIPS

Team members are not to accept gifts, tips, gratuities, or special favors from Client Partners or vendors, and are prohibited from soliciting money, gifts, or special favors from other team members or their families. MH Construction, Inc. realizes that

there may be certain solicitations, such as school fundraisers, that team members would like to make available to their colleagues; contact your supervisor before bringing any solicitation to your workplace.

COMPANY PROPERTY

If you leave your employment with MH Construction, Inc., under no circumstances may you use, remove, or fail to return any company equipment, tools, purchased software, software developed by yourself or another team member, Client Partner lists, or any other company-owned materials or intellectual property, without the express written permission of the President. Final checks will not be distributed until all company property is accounted for, or until management has agreed to release the final paycheck.

CONFIDENTIALITY & CONFLICT OF INTEREST

MH Construction, Inc. requires all team members to sign a confidentiality and non-disclosure agreement as a condition of employment, due to the possibility of being privy to information that is confidential and/or intended for the company's use only. This policy protects the interests of MH Construction, Inc. by safeguarding confidential, unique, and valuable information from competitors or others.

Additionally, team members must avoid any relationship or activity that might impair, or even appear to impair, their ability to make objective and fair decisions when performing their jobs. Should an occasion arise in which you are unsure of your obligations regarding confidentiality or a potential conflict of interest, it is your responsibility to consult with the President of the company. Failure to comply could result in disciplinary action up to and including termination.

CH 05: Leave & Time-Off Policies —

Revision 4.0 • Effective July 2026 • Approved: Jeremy Thamert, Owner/President

HOLIDAYS

MH Construction, Inc. recognizes the following holidays as paid holidays for all team members:

- New Year's Day
- Memorial Day
- Independence Day
- Labor Day
- Veterans Day
- Thanksgiving Day
- Day after Thanksgiving
- Christmas Day
- Floating Holiday

Should a holiday fall on a Saturday, the preceding Friday will be considered the paid holiday; if a holiday falls on a Sunday, the following Monday will be considered the paid holiday. Team members who work in a department that regularly operates seven days a week will be scheduled for an alternate day off if they work on the holiday. Team members who do not perform any work during the week in which a paid holiday occurs, and who are not using approved PTO or sick time during that week, are not eligible to receive holiday pay. If your job requires you to work on one of these holidays, you may be paid overtime. If a paid holiday occurs during your vacation, you will not be charged for a vacation day, and you may extend your vacation by an additional day if you choose.

PERSONAL TIME AND PAID TIME OFF (PTO)

Personal time is any time a team member is not at work during their normal work schedule and may be used for sickness, vacation, compassionate leave, maternity leave, or any other reason. Arrangements for personal time off must be made with the supervisor as far in advance as possible; at least two weeks' notice is required for scheduling more than two days of personal time off, and all personal time off must be made on a request form provided and approved by your supervisor. A physician's note is required for team members missing three or more days of work due to illness. If conflicts arise due to overlapping requests, management will decide on a case-by-case basis; a reasonable effort will be made to grant time off, though operational requirements may limit time off at certain times of the year.

Hourly and salaried team members are eligible for PTO. Personal time is allocated according to length of service and date of hire as follows:

LENGTH OF SERVICE	PTO ALLOCATION
At date of hire	40 hours PTO
First of the following calendar year after hire date	80 hours PTO
First of the second calendar year after hire date	80 hours PTO

PTO is separate from sick time accrual, and no PTO will carry forward to the next year—PTO allocation resets January 1st of each year unless authorized in writing by management. For hourly team members, when personal time is used up and you are not at work, you will not be paid for the time missed. For salaried team members, when personal time is used up and you are not at work for a full day, or if no work is performed for an entire work week, you will not be paid for the time missed. PTO does not count as hours worked and does not count toward overtime.

BEREAVEMENT LEAVE

MH Construction, Inc. understands that the loss of a loved one is a profoundly distressing experience. Our bereavement policy supports team members during this difficult time by providing necessary time off to grieve, attend funeral services, and manage related affairs. All full-time team members who have completed their probationary period are eligible for paid bereavement leave. A dependent—an immediate family member such as a spouse, domestic partner, child, parent, or sibling—entitles a team member to five working days of leave, and five working days are provided for the death of a child. For a non-dependent extended family member (such as a cousin, aunt, uncle, niece, or nephew) or a close friend, discretionary leave of up to five days may be taken. Recognizing the emotional impact of a miscarriage, the company provides five working days of special leave for such circumstances.

Team members should inform their direct supervisor of their need for bereavement leave as soon as possible; documentation such as a death certificate may be requested to process the leave. Team members may use their annual leave entitlements in conjunction with bereavement leave, and unpaid leave may be available for extended periods subject to managerial approval. MH Construction, Inc. supports a phased return to work, considering individual readiness and capacity to resume work, and the impact of bereavement on concentration and wellbeing will be considered in health and safety assessments, especially for roles requiring high levels of attention or operating machinery. The company recognizes and respects diverse cultural practices and beliefs surrounding death and grief, and team members are encouraged to communicate any specific needs or observances required during their time of bereavement.

SICK LEAVE & DOMESTIC VIOLENCE LEAVE

All team members of MH Construction, Inc. are entitled to sick leave pay. Sick leave accrues from the first day of employment at a rate of one hour per 40 hours worked and is available to use after 90 days of employment. Sick leave may be used for a team member's own mental or physical illness, injury, or health

condition (including preventive care); to care for a family member with such a condition; when the team member's workplace or a child's school or place of care has been closed by order of a public official for a health-related reason; and for absences that qualify under the state's Domestic Violence Leave Act (DVLA). Covered family members include a child, parent, spouse, registered domestic partner, grandparent, or grandchild, as defined by applicable law.

Any team member needing to use more than three consecutive days of sick leave shall provide physician verification that the purpose meets the policy. Sick leave that occurs immediately before or after requested time off shall also require physician verification. Proper notice is required, whether sick or not, for unscheduled absences so the time off does not become an unexcused absence; you must notify your manager prior to the start of work if you will be absent. Scheduled time away, such as doctor's appointments, must be properly arranged with your manager, with notice of when you are leaving and returning so that accurate sick leave time can be recorded.

JURY DUTY LEAVE

MH Construction supports team members in fulfilling their civic duties. If you are summoned for jury duty, you will be granted an unpaid leave of absence for the duration of your service, in accordance with state law (e.g., RCW 2.36.165). You may choose to use available PTO during this time. You must notify your supervisor immediately upon receiving a jury summons and provide a copy of the summons.

LEAVE OF ABSENCE

A leave of absence is an approved period of inactive employment. Although part or all of an approved leave of absence may be unpaid, your benefits will continue in effect during this period provided you pay all required premiums (for the full amount of the premium) on a timely basis. If your absence is subject to the Family Medical Leave Act, the employer portion of your benefit premiums will continue to be paid by MH Construction, Inc. for up to 12 weeks, and you will be responsible for the team-member portion of the premium

owed. Maternity leave is considered a leave of absence, except that a team member may first use all accumulated personal time prior to any leave of absence. MH Construction, Inc. supports your right to vote and urges you to do so; salaried team members will be allowed up to one hour off with pay for voting in state and federal elections, provided you get your supervisor's approval in advance. Team members required to be absent for military duty will be accorded all benefits provided by law and must provide military orders related to the expected absence.

MULTI-STATE LEAVE ADDENDUM

Because MH Construction operates across Washington, Oregon, and Idaho, specific leave laws may vary based on your primary work location. While the policies above reflect our company standard, we strictly adhere to the specific requirements of OR-OSHA and BOLI for Oregon team members, and Federal OSHA and Idaho state law for Idaho team members. If you are assigned to a project in Oregon or Idaho and have questions about state-specific sick leave, family leave, or predictive scheduling laws, contact Human Resources.

TRAVEL, REIMBURSEMENT, AND PER DIEM

If team members are required to use their own vehicle for company business, they will be reimbursed for mileage at the current IRS standard mileage rate; this does not include daily travel to your primary assigned job site. Related parking expenses for a company-approved trip will be reimbursed with presentation of a receipt, and receipts should be turned in during the pay period in which they occur. Traffic and parking violations will not be reimbursed.

For team members assigned to out-of-town projects requiring overnight stays, MH Construction provides a daily per diem or direct lodging coverage in accordance with project-specific terms. These arrangements will be detailed by the Project Manager prior to deployment.

Expenses other than in-town job-related travel by staff members must be pre-approved. If you must entertain prospective Client Partners or others while on a trip, keep the expenses

reasonable; you will be reimbursed for reasonable expenses that are pre-approved by the President. If you use your personal vehicle for a company errand or trip, you must be prepared to take all legal or civil responsibility for your driving and ensure your vehicle is in safe driving condition. The company will not be responsible for any accident, theft, or other occurrence when you are using your own vehicle. You may not use your vehicle for a company errand or trip if you do not have insurance to cover any potential accident, theft, or other vehicle-related occurrence, and by using your own vehicle you agree to indemnify the company from any liability due to your own driving.

CH 06: Health, Safety, & Security —

Revision 4.0 • Effective July 2026 • Approved: Jeremy Thamert, Owner/President

OUR SAFETY COMMITMENT

Safety is the operational baseline at MH Construction, Inc. Safe work practices and good housekeeping habits are responsibilities each of us shares. We provide our Client Partners and ourselves with a safer environment by keeping areas clear and hazard-free and not taking unnecessary risks. Every team member has both the authority and the obligation to stop work when a condition is unsafe.

THE MISH PROGRAM AND SITE SPECIFIC SAFETY PLANS (SSSP)

All field operations are governed by the **MH Construction Industrial Safety & Health (MISH) Program**, our comprehensive 59-chapter safety manual. The MISH supersedes this handbook on all matters of hazard mitigation, fall protection, energy control, and incident response.

Before any project begins, a **Site Specific Safety Plan (SSSP)** is developed by the Project Manager and Safety Command. The SSSP adapts the MISH standards to the unique hazards of that specific location. You are required to review, understand, and sign the SSSP for your assigned project.

OSHA COMPLIANCE AND JOB HAZARD ANALYSIS

MH Construction, Inc. follows all relevant WAC/WISHA, OR-OSHA, and Federal OSHA safety and health standards. Each job site will have specific guidelines that must always be adhered to while on site, and the Site Safety Commander (Superintendent) or Field

Safety Lead (Foreman) will conduct a daily Job Hazard Analysis (Tailgate/Mission Brief) for the scope of work to be done that day. Team members are expected to attend these briefings, wear all required personal protective equipment, and follow the site-specific safety plan at all times. A related acknowledgment form (Employee Safety Policy Acknowledgement) accompanies this handbook.

TRAVELERS INSURANCE PARTNERSHIP

MH Construction partners with Travelers Insurance as our primary risk control and safety training provider. As part of your employment, you may be assigned safety training modules through the MyTravelers® portal. Completion of these assigned modules is mandatory and a condition of employment.

REPORTING INJURIES, INCIDENTS, AND NEAR-MISSES

If you are injured or become ill on the job, you must immediately report it to your Site Safety Commander and Safety Command so the company can help you obtain appropriate medical treatment. Prompt reporting protects your health, supports an accurate investigation, and ensures your workers' compensation benefits are not delayed or jeopardized.

In accordance with MISH 56, MH Construction maintains a strict **Non-Retaliation Policy for Near-Miss Reporting**. Reporting near-misses and unsafe conditions allows us to correct hazards before an injury occurs. No team member will ever be disciplined for reporting a safety concern or a near-miss in good faith. Details of workers' compensation coverage are provided in the Compensation & Benefits chapter.

WORKPLACE SECURITY AND NON-VIOLENCE

MH Construction, Inc. is committed to maintaining a workplace that is free of violence. The safety and security of our team members is of the utmost importance. Acts of violence or threats of violence—whether verbal, physical, or implied—will not be tolerated and will result in disciplinary action up to and including termination. Team members should immediately

report any threat, act of violence, or suspicious activity to their supervisor, Safety Command, or the COO so it can be addressed quickly.

SUBSTANCE-FREE WORKSITES

A safe worksite depends on every team member being fit for duty. Working under the influence of alcohol or controlled substances endangers everyone on site. The company's full expectations, including mandatory screening requirements, are detailed in the Code of Conduct chapter and apply on all job sites and company property.

INCLEMENT WEATHER, HEAT, AND WILDFIRE SMOKE

MH Construction, Inc. functions best when all team members are at work, so it is important to report to work as scheduled. If hazardous weather conditions exist, MH Construction, Inc. expects you to use good judgment, and your supervisor will take that into consideration if you do not arrive on time. Your safety while traveling to and from a job site is never worth an unnecessary risk.

On active job sites, MH Construction strictly adheres to state-specific regulations regarding extreme heat and wildfire smoke exposure. When temperatures or AQI levels reach regulatory thresholds, the Site Safety Commander will implement mandatory hydration, shade, rest, and respiratory protection protocols as defined in the MISH program.

CH 07: Technology & Data Use —

Revision 4.0 • Effective July 2026 • Approved: Jeremy Thamert, Owner/President

ACCEPTABLE USE OF COMPANY TECHNOLOGY

Company computers, mobile devices, software, e-mail, and network access are provided to team members for MH Construction, Inc. business. Securing company and Client Partner data is a responsibility every team member shares. Team members must protect proprietary information through regular password maintenance, appropriate access controls, and by following any information security procedures the company puts in place. Related agreements (Computer and Electronics Use Agreement) accompany this chapter.

E-MAIL, PHONE, AND MAIL

The use of a company email address is for company business only; do not provide your company email for personal communications or personal online accounts. Management reserves the right to monitor e-mail and to have all passwords and access codes for files created on company time or for the company's benefit. If any unauthorized team member accesses another team member's files, company records, e-mail, or voice mail without specific authorization, they may be subject to a warning or termination depending on the severity of the access.

Limit the number of personal calls made or taken during business hours, and keep conversations under three minutes so as not to tie up the business lines. MH Construction, Inc. does not release personal information to outside callers. Long-distance personal calls should not be made on business lines; obtain your supervisor's approval if you need to make one, and you will be expected to reimburse the company for the call. All personal mail must be directed to your home, and personal

business activities are not to be conducted during working hours.

APPROVED PLATFORMS & CLOUD STORAGE

MH Construction utilizes specific, approved platforms for project management, timekeeping, and document control (e.g., Procore, HH2, Proton ecosystem, GitHub, and the Safety Dashboard). Team members are required to use these approved platforms for all company business. Do not store company documents, client data, or project plans on personal cloud storage accounts (e.g., personal Dropbox or Google Drive) or unauthorized external drives.

AI AND LLM USE POLICY

Artificial Intelligence (AI) and Large Language Models (LLMs) offer valuable productivity benefits, but they also present significant data security risks. Team members may not input confidential company data, client contracts, financial information, or proprietary construction plans into public, consumer-grade AI tools (such as public ChatGPT or Claude) without explicit authorization from the COO. Any use of AI tools for company business must be conducted on approved, secure platforms where data privacy is guaranteed by contract.

CYBERSECURITY INCIDENT REPORTING

If you suspect your company device has been compromised, or if you accidentally click a malicious link or download a suspicious file, you must report it immediately to the COO or IT support. Do not attempt to hide the error. Immediate reporting allows the company to isolate the threat and protect client data.

COMPANY VEHICLE POLICIES AND PROCEDURES

A related acknowledgment form (Company Vehicle Policies and Procedures Acknowledgement) accompanies this section. The following requirements apply to all assigned company vehicles:

- **Eligibility to drive a company vehicle.** Team members eligible to drive a company vehicle are selected at the discretion of the company. Prior to vehicle assignment, eligible team members must prove they hold a valid driver's license that is not suspended or revoked. MH Construction, Inc. will also review your driving record and periodically run a Motor Vehicle Record (MVR), as required by our insurance carrier, during your assignment.
- **Driver responsibilities.** If a team member's driver's license is revoked, suspended, or restricted for any reason, it is mandatory that an MH Construction, Inc. manager be notified immediately.
- **Scope of use.** No person other than the assigned team member shall operate the vehicle unless that person is a team member of MH Construction, Inc., is on the approved driver list, and has permission from the assigned team member or a supervisor. Possession, transportation, or consumption of alcohol or controlled substances in the vehicle is not allowed. Drivers and all passengers must wear available personal restraints. Report any accident immediately to police and MH Construction, Inc. management. Company-owned vehicles are for company business only; personal use is prohibited, and personal trailers, boats, and recreational vehicles are not to be pulled. Company vehicles may be driven home and used for transportation to and from work only if approved by management. All company tools, equipment, and electronics must be reasonably stored and secured; loss or theft of company property due to negligence is at the sole expense of the team member, and loss or theft of personal belongings from a company vehicle is the team member's sole responsibility. No pets are allowed in company vehicles.
- **Maintenance and upkeep.** Drivers are responsible for ensuring the vehicle is well maintained, including maintaining the vehicle's maintenance and fuel log and

coordinating scheduled service with the Warehouse Manager or Chief Superintendent. Turn in all repair receipts and maintenance records for filing. Report any damage, burned-out bulbs, and fuses for lights, turn signals, headlights, and horn immediately. Keep the vehicle clean and orderly—at a minimum, the interior washed monthly and the exterior washed bi-weekly. Random inspections will be conducted by management to ensure safe serviceability, and logs are to be furnished upon request. Failure to maintain a clean and orderly vehicle will result in disciplinary action up to and including termination.

TEMPORARY REMOTE-WORK POLICY

Telecommuting—also called teleworking, working from home, or working remotely—is a work arrangement in which a team member works outside of the office. Related forms (Temporary remote-work Application/Agreement and Computer and Electronics Use Agreement) accompany this section. Candidates for remote-work arrangements must be trustworthy, disciplined, and self-motivated, and must possess good time-management and organizational skills. A team member may be eligible to temporarily work remotely if their duties can be met through basic hardware and software; not all jobs can be performed off-site, and positions requiring face-to-face interaction with Client Partners and office personnel typically do not meet remote-work requirements.

Team members working remotely must carry out the same duties and responsibilities they do on MH Construction, Inc. premises, remain available for scheduled meetings and required office activities, and agree with their manager on the work schedule and the manner and frequency of communication. Securing data and company information is of the utmost concern: team members working remotely must use secure Wi-Fi connections, utilize company VPNs when accessing internal networks, and protect proprietary company and Client Partner information through locked file cabinets and regular password maintenance. Any breach in security protocol will lead to strict and swift disciplinary action. MH Construction, Inc. will provide office supplies and furnishings such as a computer with applicable software, keyboard, mouse, and monitors; company

equipment is to be used for business purposes only and returned upon termination. All company policies regarding conduct, electronics use, confidentiality, and more continue to apply regardless of physical work location. MH Construction, Inc. has the right to cancel or suspend remote-work privileges at any time and will make every effort to provide 30 days' notice.

CH 08: Disciplinary Action & Separation —

Revision 4.0 • Effective July 2026 • Approved: Jeremy Thamert, Owner/President

OUR APPROACH TO PERFORMANCE AND CONDUCT

MH Construction, Inc. expects every team member to conduct themselves in accordance with generally acceptable work behaviors and to uphold the standards described throughout this handbook and the MISH program. When concerns arise, our goal is to address them fairly, clearly, and—wherever possible—in a way that helps the team member succeed.

PERFORMANCE IMPROVEMENT

When performance concerns arise, a team member may be placed on a Performance Improvement Plan (PIP) for a period to be determined by their supervisor. A PIP is intended to clearly define expectations and give the team member a defined opportunity to meet them.

DISCIPLINARY PROCESS & MISH INTEGRATION

Disciplinary action will depend on the circumstances surrounding the violation and will include termination if necessary. Where appropriate, the company may use progressive discipline—such as a verbal warning, written warning, disciplinary suspension, or termination—but MH Construction, Inc. reserves the right to determine the appropriate level of discipline based on the situation.

For field safety violations, discipline is governed by the **MISH Corrective Action Order (CAO)** system. A CAO issued by Safety

Command or a Site Safety Commander serves as formal, documented discipline and is integrated directly into the team member's HR personnel file.

Your employment is not guaranteed for any specified length of time, and MH Construction, Inc. reserves the right to terminate team members with or without cause.

GRIEVANCE AND APPEAL PROCESS

If a team member believes a disciplinary action or CAO was issued unfairly or based on inaccurate information, they have the right to appeal. Appeals must be submitted in writing to the COO within three (3) business days of the disciplinary action. The COO will review the documentation, consult with the involved supervisor or Safety Command, and issue a final, binding decision.

TERMINATION AND RESIGNATION

Your employment is not guaranteed for any specified length of time. You have the right to terminate your employment with or without cause, and MH Construction, Inc. reserves the right to terminate team members with or without cause. If you decide to voluntarily leave MH Construction, Inc., you are expected to provide two weeks' notice before terminating your employment; if you do not give this notice, your supervisor may require immediate departure. Any keys or other property of MH Construction, Inc. must be turned in upon termination, and if company property is not returned before employment is terminated, the estimated value of the property may be deducted from the team member's final check.

After employment at MH Construction, Inc., former team members may not use proprietary knowledge, software, software routines, Client Partner lists, or other company assets for the benefit of other companies or non-MH Construction, Inc. staff.

EXIT INTERVIEWS AND OFFBOARDING

When you leave MH Construction, Inc., you will be scheduled for an exit interview with Human Resources or the COO. This interview gathers valuable feedback to assist the company in addressing team member concerns and provides an opportunity to explain various benefits that may extend beyond the date of separation. During this process, a formal offboarding checklist will be completed to ensure all company property, keys, and digital access credentials have been returned and secured.

RETURN OF COMPANY PROPERTY AND FINAL PAYCHECK

Team members are required to return all company property upon separation of employment. Final paychecks may be withheld only as permitted by applicable law until all company property has been returned. Where allowed by law and with any required written authorization, the company may deduct or recover the value of unreturned or damaged property from a team member's final wages.

CH 09: Workplace Respect & Anti-Harassment —

Revision 4.0 • Effective July 2026 • Approved: Jeremy Thamert, Owner/President

A CULTURE OF RESPECT

It is the policy of MH Construction, Inc. to foster an environment of respect for the dignity and worth of all team members. Strong working relationships, grounded in mutual respect and understanding, are the foundation of our success. Every team member is responsible for helping to maintain a workplace that is professional, inclusive, and free of harassment and discrimination.

EQUAL EMPLOYMENT OPPORTUNITY

MH Construction, Inc. provides Equal Employment Opportunity to all team members and applicants for employment in accordance with all applicable Equal Employment and Affirmative Action laws, directives, and regulations of Federal, State, and Local governing bodies or agencies. MH Construction, Inc. will not discriminate against or harass any team member or applicant on the basis of race, color, creed, religion, national origin, sex, sexual orientation, disability, age, marital status, or status with regard to public assistance. We take affirmative action to ensure that all practices are free of such discrimination, including hiring, upgrading, demotion, transfer, recruitment or recruitment advertising, selection, layoff, disciplinary action, termination, rates of pay or other forms of compensation, and selection for training.

MH Construction, Inc. supports the policies of the Americans with Disabilities Act and is committed to treating all applicants

and team members with disabilities in accordance with the requirements of that act.

ANTI-HARASSMENT AND DISCRIMINATION POLICY

Because incidents of harassment are demeaning to everyone involved and impair the company's ability to perform, MH Construction, Inc. will not tolerate any conduct that sexually, physically, or emotionally harasses another team member by intimidation, retaliation, verbal abuse, or in any other way that demeans or discriminates against any team member.

Harassing behavior has the effect of creating an intimidating, hostile, or offensive work environment and is prohibited in the workplace, whether committed by supervisory or non-supervisory personnel. Harassing conduct includes, but is not limited to, unwelcome sexual advances, requests for sexual favors, and all other verbal or physical conduct of an offensive sexual nature. It may also include offensive and derogatory comments, jokes, e-mails, innuendoes, graphic verbal comments about an individual's body, degrading words used to describe an individual, or displaying or possessing sexually suggestive objects or pictures in the workplace.

SUPERVISOR TRAINING REQUIREMENTS

In compliance with Washington State law (SB 5258), all MH Construction supervisors, managers, and Site Safety Commanders are required to complete mandatory harassment prevention and intervention training. This ensures our leadership team is equipped to identify, prevent, and appropriately respond to any incidents of harassment on our job sites or in our offices.

REPORTING PATHWAYS AND THIRD-PARTY INVESTIGATION

Any team member who believes he or she has been harassed should immediately report the incident. MH Construction

provides multiple reporting pathways to ensure you can speak to someone you trust:

1. **Direct Supervisor:** If you are comfortable doing so, report the incident to your immediate supervisor.
2. **Chief Operations Officer (COO):** If the supervisor is involved, or if you prefer, report directly to the COO.
3. **Owner/President:** You may always report an incident directly to the President.
4. **AGC Resources:** As an AGC member company, we utilize AGC's harassment prevention resources. If an internal investigation is not appropriate due to the nature of the complaint, MH Construction will engage a neutral third-party investigator to review the claim.

All complaints and related information will be investigated promptly and kept confidential to the extent possible without compromising a thorough investigation.

NON-RETALIATION

MH Construction, Inc. strictly prohibits retaliation against any team member who, in good faith, reports harassment or discrimination or participates in an investigation. Retaliation is itself a violation of this policy and will result in immediate disciplinary action up to and including termination. If you believe you are experiencing retaliation for making a report, notify the COO or President immediately.

ACKNOWLEDGMENT FORMS

Revision 4.0 • Effective July 2026

EMPLOYEE HANDBOOK ACKNOWLEDGMENT

I acknowledge that I have received a copy of the MH Construction, Inc. Employee Handbook, Revision 4.0, and that I have read and understand its contents. I understand that this handbook is not a contract of employment, and that MH Construction, Inc. reserves the right to modify, revoke, suspend, terminate, or change any or all plans, policies, or procedures in whole or in part, at any time, with or without notice.

I understand that my employment is at-will and may be terminated by either party at any time, with or without cause or notice. I agree to comply with all policies and procedures contained in this handbook.
